#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

We are recommending that your Board award these construction contracts and authorize the Director of Public Works or his designee to execute the contracts and establish the effective contract dates following receipt of approved bonds and insurance filed by contractors for each of these projects.

The enclosure for each project includes the project description, the call for bids and bid opening dates, a tabulation of bids, and financial information. The certified record of receipt of bids and the original bid proposals for each project are also enclosed, including addenda to the contract specifications for Project ID Nos. APT5070467, FCC0000789, FCC0000865, FCC0000877, FMD0001034, OSD0000007, RDC0013688, RDC0014185, RDC0014350, RDC0014482, WWD2900002, and WWD4004017.

The recommended construction contracts are necessary to execute Board-directed and approved Public Works projects in support of operational missions. Your Board's approval of the recommended contract awards and our subsequent execution of the contracts will ensure the timely completion of the projects.

### **Implementation of Strategic Plan Goals**

The award of these construction contracts is consistent with the County Strategic Plan Goal of Service Excellence since these contracts will provide improved infrastructure to better serve the public.

### **FISCAL IMPACT/FINANCING**

The enclosure for each project includes the amount of the recommended contract as compared with the engineer's estimate and the other bids received.

These projects are included in the 2003-04 Department of Public Works Budget. The enclosure for each project includes more detailed fiscal and financial information.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

Recommended contract awards are to the lowest responsible bidders in accordance with the California Public Contract Code and your Board's directives.

On October 27, 1981, your Board adopted a program for the use of small Minority and Women-owned Businesses (MWBs) on Federal- and State-funded highway construction contracts. Companies meeting these requirements are certified by the State as Disadvantaged Business Enterprises (DBEs). An overall goal for subcontracting portions of the work to DBEs is established for each project. Contracts are recommended for award to the lowest responsible bidder who meets the goal or documents a good faith effort to do so in conformance with the program.

We have also developed an outreach program to encourage all qualified contractors to participate in the bidding and contracting process on our projects. Under this program, we place notices of upcoming bids in local and minority newspapers throughout the County. These notices indicate that copies of plans and specifications are available at specified libraries and the Public Works Headquarters building. This allows interested contractors to view the plans and specifications at convenient locations. We also provide telephone numbers (including one for Spanish-speaking contractors) to obtain further information on bidding and subcontracting opportunities.

To further increase contractor awareness of contracting opportunities with Public Works, each of these projects was listed on the County website for upcoming bids.

The State Labor Code requires contractors to pay prevailing wage rates to all persons employed on public works construction contracts. These rates are determined by the Department of Industrial Relations and include contributions for fringe benefits such as vacations, pension funds, training, and health plans for each employee.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

The contracts will be in the form previously approved by County Counsel. We will also review and approve the faithful performance and payment bonds filed by the contractors.

#### **ENVIRONMENTAL DOCUMENTATION**

On August 31, 1991, your Board approved the Negative Declaration for Project ID No. APT5070467.

On November 4, 2003, your Board approved the Negative Declaration for Project ID No. FCC0000672.

On September 2, 2003, your Board approved the Negative Declaration for Project ID No. FCC0000877.

On July 30, 2003, your Board approved the Negative Declaration for Burbank Western System Access Ramp. On October 21, 2003, your Board approved the Negative Declaration for the Liberty Canyon Channel Access Ramp at PD 572. These projects have been combined into Project ID No. FCC0000924.

On December 3, 2002, your Board approved the Negative Declaration for Project ID No. RDC0013688.

On January 6, 2004, your Board approved the Negative Declaration for Project ID No. WWD2900002.

Each of the remaining projects was found to be categorically exempt from the provisions of the California Environmental Quality Act at the time your Board called for bids. The specifics of these findings are included in the enclosure for each project.

### **CONTRACTING PROCESS**

The contracts were solicited on an open competitive basis in accordance with the provisions of the Public Contract Code.

The project specifications contain provisions requiring the contractor to report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees.

Public Works has confirmed that all of the respective contractors are in compliance with the County's Child Support Compliance Program and the requirements of the Contractor Employee Jury Service Program. In addition, the contracts will include language requiring compliance with the Newborn Abandonment Law (Safely Surrendered Baby Law).

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence or General Relief Opportunities for Work Programs.

To ensure that the contracts are awarded to responsible contractors with satisfactory performance histories, bidders are required to report violations of the False Claims Act, their civil litigation history, and information regarding prior criminal convictions. The information reported by all of the respective contractors was considered before making this recommendation to approve execution of the contracts.

### **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

These construction contracts will result in improved public works infrastructure in the communities where the work is scheduled. Where appropriate, local residents and businesses will be informed that traffic and local access may be mildly disrupted during the construction. The proposed schedules for construction are included in the enclosure for each project.

FINANCIAL INFORMATION:

Amount of estimate	\$1,125,770.00
Amount of recommended contract	\$1,020,799.00
Amount of recommended contract below estimate	\$ 104,971.00

The amount of the recommended contract is 9.3 percent below the estimate.

R.C.C. is a certified Local Small Business Enterprise and is eligible for the Local SBE preference. Their bid is within 5 percent of the low bid submitted by Sully-Miller Contracting Company; therefore, the contract should be awarded to Remedial Civil Constructors, Inc.

This project is included in the Fiscal Year 2003-04 Aviation Capital Project Fund Budget.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:

R.C.C. has three MWBE subcontractors/suppliers under this contract, yielding a proposed DBE participation of 16.6 percent. This contract has a Federal-mandated DBE goal of 10 percent.

ENVIRONMENTAL IMPACT:

On August 13, 1991, your Board approved the Negative Declaration for the Whiteman Airport Master Plan.

CONSTRUCTION SCHEDULE:

The contract specifications require the work to be completed in 80 working days. It is estimated that the work will start in August and be completed in December 2004.

AWARD OF CONTRACT  
June 22, 2004

PROJECT ID NO. FCC0000627, SANTA FE RESERVOIR SPREADING GROUNDS  
HORSE TRAIL MODIFICATIONS (Cities of Irwindale and Duarte),  
Supervisory Districts 1 and 5

TYPE OF WORK: Construction of a reinforced concrete channel, an 18" reinforced concrete pipe, wall gutter, an inlet structure, an outlet structure with grouted riprap invert, and a composite riding surface horse trail, and installation of chainlink fence and cable railings.

CALL FOR BIDS DATE: April 6, 2004 (Synopsis 40)

BID OPENING DATE: May 4, 2004

BID SUMMARY:

Low	4-Con Engineering, Inc., a corporation 14771 Washington Drive Fontana, California 92334-2217 (909) 427-1177	\$344,534.50
-----	--	--------------

Remedial Civil Constructors, Inc., dba R.C.C., was the apparent low bidder in the amount of \$338,347.00. However, their bid indicated that more than 56 percent of the work would be subcontracted. The project specifications require that a minimum of 50 percent of the work be performed by the prime contractor. Therefore, their bid was rejected in accordance with the "Instruction to Bidders," Part 9, Section H, "Nonresponsive Bids and Bid Rejection."

The apparent second low bidder, Palp, Inc., dba Excel Paving Company, submitted a bid in the amount of \$344,404.00. Examination of the subcontract amounts confirmed that Excel Paving Company also intended to subcontract more than 50 percent of the contract amount. Therefore, their bid was also rejected as being nonresponsive. Hence, the contract should be awarded to the third low bidder, 4-Con Engineering, Inc.

FINANCIAL INFORMATION:

Amount of estimate	\$295,281.00
Amount of recommended contract	\$344,534.50
Amount of recommended contract above estimate	\$ 49,253.50

The amount of the recommended contract is 17 percent above the estimate. Since the three bids submitted were very competitive, it is very unlikely that readvertising the project would result in lower bids.

Sufficient funds for this project are available to the Flood Control District for the Fiscal Year 2003-04.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:

4-Con Engineering, Inc., has no MWBE subcontractors/suppliers under this contract, which does not have a Federal- or State-mandated DBE goal.

ENVIRONMENTAL IMPACT:

This project is categorically exempt pursuant to Class 1, Subsections (f) and (l), and Class 3, Subsection (q), of the revised County Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987.

CONSTRUCTION SCHEDULE:

The contract specifications require the work to be completed in 40 working days. It is estimated that the work will start in August and be completed in October 2004.

FINANCIAL INFORMATION:

Amount of estimate	\$296,332.00
Amount of recommended contract	\$136,974.99
Amount of recommended contract below estimate	\$159,357.01

The amount of the recommended contract is 54 percent below the estimate. Rock Structures Construction Co. has committed in writing to perform the work of this contract for the bid amount. They produce their own rock and own all of the equipment needed for this project. Therefore, we recommend award of the contract to the low bidder.

Sufficient funds for this project are available to the Flood Control District for the Fiscal Year 2003-04.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:

Rock Structures Construction Co., an MBE, has no MWBE subcontractors/suppliers under this contract, which does not have a Federal- or State-mandated DBE goal.

ENVIRONMENTAL IMPACT:

On November 4, 2003, your Board approved a Negative Declaration for this project.

The amount of the recommended contract is 21 percent above the engineer's estimate. Based on the complexity of the work to be performed and the fact that all bids were above the estimate, we do not believe readvertising this project would result in lower bids. Therefore, we recommend that the contract be awarded to the low bidder.

Sufficient funds for this project are available to the Flood Control District for Fiscal Year 2003-04.

Public Works has entered into a Groundwater Storage Construction Grant Contract under the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act (Proposition 13) with the California Department of Water Resources and will be reimbursed up to \$2,150,000.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:
